### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

This communication is an Examiner's reasons for allowance in response to application filed on 02/27/2002, assigned serial 10/083,376 and titled "Portable Information Terminal and Control Method."

The following is the Examiner's statement of reasons for the indication of allowable subject matter:

The examiner has carefully reviewed the application in view of the cited prior art of Stewart and Yen. The applicant's argument is the parameter information disclosed in Yen is not the type of information that would be output to a user. That kind of information is a digital channel. The argument is persuasive.

None of the references of record has not been found to teach or fairly suggest the limitations as recited in the independent claims of the present invention, thus, the examiner has withdrawn the art rejection and set the application in a condition for allowance.

The prior art does not contain any teaching that would lead a skilled person to modify the closest prior and thereby arrive at the invention. Therefore, the claimed invention is not obvious to an ordinary skill in the art. Accordingly, the claimed invention is now patentable.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tuan To, whose telephone number is (703)

Art Unit: 3663

308-6273. The examiner can normally be reached on Monday-Friday from 8:00 AM-4:30 PM.
